ORB Technology Limited Update

ORB Technology Limited began investing in sharemarkets on 20 October 2003. Share exposure for the fund has been selected from the following sectors: Hardware & Equipment, Software & Services, Wireless & Internet, Telecom Services, Pharmaceuticals, Medical Devices, Biotechnology, Industrial Technology and Diversified Technology.

As at 31 March 2007, the share portfolio of the Fund was tilted towards Wireless & Internet (net exposure of 63%) and Biotechnology (28%), with lower weightings in Software & Services (18%), Pharmaceuticals (13%), Industrial Technology (7%), Hardware & Equipment (3%) and Medical Devices (3%). Short sales in particular companies were used to reduce exposure in most industry groups. This resulted in a net short position in Telecom Services (-4%). In addition, the Fund held an index short position designated as Diversified Technology (-31%).

The conservative settings of the Fund provided some protection from a decline in sharemarkets in the month; the NASDAQ Composite declined 2.4% in Australian dollar terms in the month. Interest rates rose modestly over the month, detracting from the value of the Fixed Deposit Account.

The share price will be updated on this website monthly.
