## ***ORB Technology Limited Update***

ORB Technology Limited began investing in sharemarkets on 20 October 2003. Share exposure for the fund has been selected from the following sectors: Hardware & Equipment, Software & Services, Wireless & Internet, Telecom Services, Pharmaceuticals, Medical Devices, Biotechnology Industrial Technology and Diversified Technology.

As at 31 May 2007, the share portfolio of the Fund was tilted towards Wireless & Internet (net exposure of 74%) and Biotechnology (31%), with lower weightings in Software & Services (13%), Pharmaceuticals (13%), Industrial Technology (9%), Medical Devices (12%) and Hardware & Equipment (-2%). Short sales in particular companies were used to reduce exposure in most industry groups. This resulted in a net short position in Telecom Services (-12%). In addition, the Fund held an index short position designated as Diversified Technology (-38%).

The fund was impacted in the month by a decline in the equity portfolio that reduced the value of the Margin Account and by a small rise in interest rates that adversely impacted the value of the Fixed Deposit Account.

The share price will be updated on this website monthly.
