ORB Technology Limited Update

ORB Technology Limited began investing in sharemarkets on 20 October 2003. Share exposure for the fund has been selected from the following sectors: Hardware & Equipment, Software & Services, Wireless & Internet, Telecom Services, Pharmaceuticals, Medical Devices, Biotechnology Industrial Technology and Diversified Technology.

As at 30 June 2007, the share portfolio of the Fund was tilted towards Wireless & Internet (net exposure of 77%) and Biotechnology (28%), with lower weightings in Software & Services (13%), Pharmaceuticals (13%), Medical Devices (10%), Industrial Technology (9%) and Hardware & Equipment (1%). Short sales in particular companies were used to reduce exposure in most industry groups. In addition, the Fund held a net short exposure to Telecom Services (-12%) and an index short position designated as Diversified Technology (-39%).

The fund was adversely impacted in the month by a decline in the equity portfolio in Australian dollar terms that reduced the value of the Margin Account and by a small rise in interest rates that adversely impacted the value of the Fixed Deposit Account.

The share price will be updated on this website monthly.
